### Porcupine Hills Fire

The old London Mill at the end of the Government road and a big pile of lumber was destroyed in the Porcupine Hills fire. It has burned over twenty miles. No homes had been destroyed up to Thursday. It started in Happy Valley and burned to Willow Creek where the R.N.W.M.P. and settlers were fighting it with "back fires".

### Mr. Camies Resigns

At the meeting of the school board last week a surprise was sprung in the shape of a resignation. Mr. Camies owing to his being out of town so much felt that he was not getting the duties a fair share of attention and in view of there being a bye-election pending for the town council he thought it the most opportune time to retire so as to save expense in connection with the election of a successor. Mr. Camies' resignation was reluctantly accepted, his fellow members realizing that the school district in losing the services of a good man. The board also added another interesting item of business by deciding to ask the town council to pass a curfew bylaw. There are a number of children on the streets too much at nights for their general good and the effect is noticeable in the school. It was decided to refer the question of sending delinquents for the payment of the claim of Teskey and Robertson to the minister of education before being definite action.

### Oddfellows to Celebrate

The members of Foothill lodge (A.O.U.W.) and all visiting brothers are urged to be present at the lodge rooms at 8 o'clock on Sunday night to march in a body to the Methodist church where the anniversary sermon will be preached by Rev. A. B. Argue. This is the 91st anniversary of the founding of the order and is a usual world-wide, the brethren celebrate and make divine service an important part of the ceremonies. It is hoped that all members of the order will show their interest by turning out. A small procession will not serve to give the onlookers much of an idea of the strength of Oddfellowship in Claresholm. On the 25th there will be a social event in connection with the celebration.

### Knights of Pythias

After being in a dormant condition for fully a year the Claresholm lodge Knights of Pythias has been revived and judging by the number of initiations and interest shown will be one of the strongest orders in the town. There was very general interest and it took two nights to finish the work and two long nights at that. The work of reorganization was conducted by Mr. A. S. Thurber of Nanton, D. G. C., assisted by Mr. W. Franzen of Nanton, Chancellor Commander of the lodge in that thriving town. Both gentlemen have the ritual off by heart and this combined with the necessary histrionic ability gave the beautiful ceremony exceptional effectiveness. Both visitors proved very popular and established the best of fraternal relations between knights of the two towns. A large list of new candidates were taken in, the three degrees being put on without a break. It made a stormy night, work but it was worth while. The officers elected for the year are as follows. P. C. J. B. Boese; C. C. E. C. Payne; V. C. George Farrer; Private, Dr. Leary; E. of R. and S. C. Rompkin; M. of A. C. J. Braren; M. of E. F. T. W. Quayle; M. of E. J. B. Boese; I. G. T. P. Mosely; O. G. F. E. Gibson. On Wednesday night this week Mr. Thurber gave instruction in the origin and meaning of the secret work of the order his address proving very helpful to the new members. The Knights of Pythias have got away to a good start.

### Line up for this Event

The Alberta Sunday School association is arranging for a series of conventions this coming summer which promise to attract more than usual attention because they will be out of the ordinary. The gathering for this district will be held in Claresholm and the territory will extend from Parkland to Grumum with tributary schools. Several of the best experts on the continent have been secured for these gatherings and they are expected to draw large crowds. One of the special features will be the music and there will be a large massed choir and orchestra. The convention is to be honored with the presence of Prof. L. L. Henry manager of the Tuller-Meredith Co. of Chicago, who will have charge of the music and will likely give a couple of short talks on how to get the best out of the singing in the schools. Mr. H. P. Kenny secretary of the provincial association was here this week and arranged with Mr. W. G. Moffatt to organize the massed choir and Mr. J. E. Bovan in reference to the orchestra. Among the other experts who are coming is Miss Falk of the Manitoba Normal school staff who is a specialist in primary work. She is instructress in kindergarten work at the Normal. The convention here will be held July 13th and 14. There will be about 25 gatherings throughout the province and it will all end with a big summer school at Banff. The work of the Alberta Sunday School association includes all denominations.

### Lacrosse Annual

Dr. Stanley of High River, as president, has called the annual meeting of the "Alberta Lacrosse Association" to meet in Calgary on Tuesday next, April 26th. Lacrosse hasn't become one of the games in Claresholm yet but has gained quite a foothold in Nanton and High River. It is a bonny game and no one has done more to make the Canadian game popular than the same Dr. Stanley. He has never lost the interest he gained when playing with the old St Marys team in Ontario.

### Sizzles in Texas

Editor Review

There are a good many different opinions expressed by different travelers in regards to the value of Texas as a farming country. On the banks of the Rio Grande stands an old deserted shanty with the following inscription.

"WHAT THE DEVIL DID TO TEXAS".

He put big thorns all over the trees And mixed up the sand with millions of fleas. He scattered tarantulas along the roads. Put thorns on cactus and horns on the loads.

He lengthened the horns of the Texas steers And put an addition to the rabbits ears. He put a little devil in the broncho steed And poisoned the feet of the centipede.

The rattlesnake bites you the scorpion stings. The mosquito delights you with the buzzing wings. The sand burrs prevent and so do the ants And those who don't down need half sons on their pants.

The devil then said that throughout the land He'd arranged to keep up old satans over land. And all should be mavericks unless they were Marks or scimiters, of bites and thorns by the score.

The heat of the summer is one hundred and ten Too hot for satan and too hot for man. The wild boar roars through the black chaparral. Can't this place be too hot for a hell. The poor fellow that wrote that evidently had the blues, but there is one thing that is hot here in Texas, politics. There are four men running for Governor and the parties are fighting each other tooth and nail. I am about to enter Oklahoma and shall keep my face toward the north until I arrive by me about June 1.

Yours very truly,  
G. H. Schoof.

## AN OLD TIMER'S STORY

Reminiscences of the Western States

By  
A Claresholm Man.

## CHAPTER I.

The following story has as an author a Claresholm man who vouches for its truthfulness. There will be several chapters and the fact that it reads very much like a dime novel should not be held against it. The encounters with Buffalo, redmen, etc., are recollections of a age that is past.

During the spring of 1871 I came with ten other men, started from Ft Worth, Texas, then the terminus of the T. & P. R. R. The party were F. A. Blake, J. E. Shaw (pronounced Sly) Van Peterson, W. E. Gregg, Bob Langgan, Young, C. C. Langford, C. F. Tremblay, J. Paul Prescott, Mike Vergeson, from different points in the undeveloped west. We had two big log wagons and three four yoke teams of oxen. We came via Weatherford and Ft Griffin. The latter place being the last of the settlement in western Texas. We were quite well equipped with modern fire arms and each had a good saddle horse. Nothing worthy of note happened during our journey for the first one hundred miles, except army wild turkey Indians which caused much loss of sleep and shoe leather. We had traveled some distance on the Great Staked Plains, when we killed our first Buffalo, the meat of which was highly appreciated by us, after living on salt beef for several weeks. The next day our Scouts were ahead, near the "Palo Duro Canon" when they saw about fifty or sixty head of Buffalo (goats) into the Canon. They returned to camp and informed us of the fact and other tenatters and the cook and I started to slaughter our first Bison. It was a box Canon with only two or three trails leading into it for several miles. We sighted the Buffalo from the top of the Canon and proceeded cautiously. "gun shot. Mr. Blake our captain ordered us to get ready and fire. To my credit I hit the one I shot at in the jaw, but not quite down, the Buffalo ran about 200 yards and stopped against the rock cliff. We advanced in line of battle firing as we went. The Buffalo stood as a bunch of cattle when cornered, each one trying to get to the center. We fired some fifty or seventy five shots before we saw one fall. We then went around to the rear and gave them a chance to run, which they did, it, all that were able to run, for I think, at least one half of the herd were either killed or wounded. Wounded at camp late at night I rode with gore and glory. The next day we moved to and across the Palo Duro (which means Hard Pole) Canon and went into camp for the day. Five of us took our guns and went down the Canon to slaughter the wounded Buffalo, that had stayed in the Canon and for two or three hours we made more noise than Teddy Roosevelt made when he charged San Juan Hill. But not as much noise as he made after he returned home. After we had grown tired of slaughtering they were attacked by a small band of Indians. Our men were reinforced from the wagon and the Noble red men retired to the lush above the road. Blake and I sight took their sharp's axes and cut down the open space where the trail crossed the Canon, to protect the tender foot hunters down the Canon. About dark we looked up and drove about four miles to the "Blue Hole" and camped. We expected an attack about day break which is a favorite time for the Southern Indians to make an attack. So we slept on our arms at least I did for I always promised the man who first invited sleep. Just at the first peep of day one of our men discovered the Indians crawling that on the ground toward our camp. Blake ordered charges and every man responded. When my partner awoke me I wanted to tell the charge, but some how, I missed the warning cry and went in a direct line for the wagons. I was going so fast I could not stop and I could not jump over them so I attempted to go under them, but unfortunately for me my head came in contact with a projecting bolt which plowed a big furrow in my scalp, which, for several days went for the trail of a Mauer bullet. When they wounded one Indian and the others fled for the "Palo Duro". After they had brought the wounded Indian into camp I wanted to kill him for, I said I was quite sure that he was the one that wounded me. This Blake would not allow. We placed some food and water near him and left him to his own meditations. A day or two after this I went north from the trail to look for water. Bill Peterson went with me. We had a fight when we came in sight of each other. I did not know that he was there, mistook him in his red shirt for an Indian and he swung me take flight thinking I really saw Indians, came at full speed upon me. The train saw us coming and prepared for battle. After the state was over they decided to have me do all the scouting as they considered me a dead sea man. In four or five days, we reached the Canadian river at a place called Ties. The men here have to quit the train and went down the river, twenty five miles and went to work for the Bar X outfit. I previously had some experience with the long horns, so I was given a string of horses and the other boys took charge of the culinary department of different cow camps. I with other men was sent down the river to meet the Sweetwater Round Up and help bring the cattle home. We stayed over night at a ranch called the Adobe Walls, (Adobe is a fact and dried brick) There were fourteen in all, McCannery and his cook, nine Buffalo hunters and my two companions and myself. Some of the men stayed up and gambled all night. Just at the break of day, we heard the alarm of Indians, and we also saw the Indians. Between two hundred and three hundred Indians gave the war whoop and charged for the house. Two young men by the name of Scheidler were sleeping in their wagon, one shook the other and called out, "Indians!" but it was the story of "the wolf" and he did not wake up, his brother reached the house and seeing that his brother was not coming returned to wake him and both were killed "scalped" and full of arrows. (To be continued.)

## SALE OF LANDS IN THE TOWN OF CLARESHOLM FOR ARREARS OF TAXES

Notice is hereby given that certain lands in the town of Claresholm will be offered for sale for arrears of taxes on Wednesday, the eleventh day of May, A.D. 1910 at 10 o'clock A.M. at the council chamber in the said town, as advertised in the issues of the Claresholm Review of Feb. 24th, and 3rd, 10th and 17th of March, 1910. Unless the taxes and costs are sooner paid I am instructed to proceed with the sale as above.

GEORGE SIMPSON, Secy-Treas.

Your money back if Purity Flour does not prove entirely satisfactory in the baking.

DON'T simply buy flour from the dollar and cent store. Buy high-quality flour. That means PURITY FLOUR. The first little extra cost is more than made up by the extra number of loaves of bread (baked) by the superiority of the bread and pastry in sweetness of flavor and nourishing qualities. Buying Purity Flour is a safe investment. You get large returns, not only on account of Purity's ability to produce more, but because Purity contains the greater nutrient and the vim of a strong hard wheat flour. Food made from Purity Flour gives the consumer health, snap and force, which cannot be gained from the use of the weaker soft wheat flour.

"MORE BREAD AND BETTER BREAD"

## PURITY FLOUR

You can buy as little as 7 pound cotton bag or in 14, 24, 49, and 98 pound sacks. Also in barrels and half-barrels.

Purity may cost a little more than some flour but you'll find its more than worth the difference. To be genuine, must bear the Purity trade mark.

## Pains About Heart Splitting Headaches

Caused Much Suffering and Alarm—  
But all is Well Now Since Taking  
**DR. CHASE'S NERVE FOOD.**

Nearly everybody gets serious when the  
headache is affected. Headaches often tell of just as great  
danger but headache is so common  
that it often falls as an alarm signal.

You are never in greater danger  
when the nervous system be-  
comes exhausted. For there is then  
every reason to look forward to some  
form of paralysis and consequent  
helplessness of mind or body.

Sleeplessness, headache, indig-  
tion, irritability, nervousness, loss of  
interest in things about you and in-  
ability to concentrate the mind are  
some of the symptoms of approaching  
nervous collapse.

Let the writer of this letter tell you  
what Dr. Chase's Nerve Food did for  
him when in such a condition.  
Mr. J. Law, 247 Hunter street, Pet-  
terborough, Ont., who is employed by  
the Peterborough City, states:  
"For a long time I was troubled with  
severe splitting headaches, and

suffered a great deal with pains in  
the region of my heart, caused no  
doubt by indigestion. I procured a  
box of Dr. Chase's Nerve Food, and  
began to take it. Since using  
it, my condition is the same. I can  
say that I feel quite different, and  
my health is very much im-  
proved. My digestion is good, and  
the headaches and pains about my  
heart have been troubled no more of  
late. I am sincerely recommend Dr.  
Chase's Nerve Food as a thorough  
cure for nervous dyspepsia and its  
accompanying symptoms.

You can rely on Dr. Chase's Nerve  
Food to bring you safely out of  
trouble when the nerves become ex-  
hausted, because it supplies in con-  
densed and easily assimilated form  
the ingredients which nature requires  
to build up new nerve cells.  
In severe cases treatment must be  
regular and persistent but you will  
soon notice signs of improvement  
which will give you encouragement.  
When you get started on the road to  
health follow Dr. Chase's Nerve  
Food. It is available at all dealers or  
H. B. Mann, Bates & Co., Toronto.

Plenty of fresh air,  
sleeping out-doors and a  
plain, nourishing diet are  
all good and helpful, but  
the most important of  
all is

## LOSING A GOOD MAN

The resignation of Mr. E. J. Ames from the school board is a real loss to the district. Mr. Ames was an excellent trustee careful in the expenditure of money and anxious for the highest possible degree of proficiency in the work of the school. He brought more than the ordinary executive ability to the board and the fact that he resigned because he could not give the business of the school the attention a trustee should be but a proof of the fitness of the man for the position. It is to be hoped that some good solid business man can be prevailed upon to take his place. The Review would like to see some man from outside the corporation, but of the school district, such as J. O. White, or Richard Brown asked to run. Mr. W. T. Rigby would also make a good man being a university graduate and a teacher of experience.

## CURFEW BELL

The school board has asked the council to pass a Curfew bylaw and coming from such a source the civic legislators are likely to give the request favorable consideration. Other towns have tried the experiment with varying success and it seems to be a case of vigilance on the part of the police. Clareholm is better equipped than most towns in respect to police force and there should be no real difficulty in enforcing such a law. There are by far too many children on the street after dark and if the parents cannot control them it wouldn't be a bad idea for the town to assist. It is entirely unnecessary to police out the vicious moral effects of children running wild at night and every child under 16 years of age should be under the parental roof by nine o'clock in the winter and eight in the winter, owing to the prolonged twilight in this country it would be a hardship to enforce the law before nine o'clock in the summer months.

## MAKING BOTH ENDS MEET

Michael's operation of the water and lighting plant for the past year was the best yet and the out of debt city is in sight. The electric plant paid well and the surplus was sufficient to wipe out the shortage on water operation. Clareholm will likely experience considerable trouble in making both ends meet but the consumption of light should go a long way towards paying expenses. In order to accomplish this it should be made as easy as possible for people to install wiring and fixtures. So far there has been much conversation about the charges for wiring and it is not designed to make for the rapid extension of the service. The charges for labor in connection with the installation of very ordinary fixtures are fierce and many are disposed to make a vigorous kick before paying the bills. The council adopted regulations some time ago in which it is stated that meters are to be installed free of charge but the man who hasn't to pay for the installation has yet to be found. No one wants the town to lose a five cent piece in installing wiring and fixtures but everyone feels that the wise policy is not to make forty or fifty per cent profit on wiring and fixtures, but to make it so easy for a householder to get the light that the installation will be general and the greatest possible number of consumers will be got for the light. It is the consumption of current that will pay the bills and the service should be installed as cheaply as possible, charge covering cost and handling being sufficient.

## MR OLIVERS GOOD WORK

While the great majority of the people of this province Liberal and Conservative alike express unbounded confidence in the honesty of Hon. Frank Oliver the average man is not given to following the whole record and as a consequence the Hon. gentleman is not receiving his full measure of credit for the splendid work he is doing in the department of the Interior. With his unquestionable honesty Mr. Oliver combines administrative capacity and initiative of exceptional strength and has contributed very largely to the rapid strides Canada has undoubtedly made in the past 15 years. In the past federal

campaign it will be remembered that Mr. Ames made a series of charges involving the honor and integrity of the department in the administration of the timber lands. All the charges made auto-dated the period of Mr. Oliver's occupancy of the portfolio and it is a matter of pride to every admirer of the Hon. gentleman, and they are many, that no charge has been made since he became minister. Whatever grounds existed for the charges made by Mr. Ames that gentleman opened himself to criticism in a lack of fairness in not giving Mr. Oliver credit for amending the timber regulations so as to remove any possibility of a recurrence of the irregularities complained of. In other branches of his department Mr. Oliver has made changes all designed to secure the interests of the country. The coal lands regulations have been strengthened, also the immigration laws and while there has been no falling off in the number of people entering Canada there has been a marked improvement in the quality of the immigrants. It is not so much as is so frequently impossible for the poorer classes of Europe to gain access to this country. Not only have the laws been altered in the interests of the country but the machinery has been provided for these enforcement and undesirable are effectively barred. Mr. Oliver has kept country first in his department and as a consequence Canada is not only going to get the cream of the European but is also attracting thousands from south of the line who are coming to a country where they get a fair chance and they are adding materially to the wealth of the west. Mr. Oliver has always been a westerner and his taking office at Ottawa has been the greatest boon this western country has ever experienced. There has been no serious criticism of Mr. Oliver's department and with his methods and ideals serious criticism is not probable. He is the man for the job and it is a matter of little pride to the west that the minister of the interior with his strong personality and rugged honesty has won for himself a position in the councils of the nation that is as influential as any man aside from the premier.

## MI-O-NA

Relieves Stomach Misery Almost Immediately

If the food you ate at your last meal did not get laid for a long time like lead on your stomach, then you have indigestion and quick action should be taken. Of course there are many other symptoms of indigestion, such as belching up of sour food, heartburn, dizziness, shortness of breath and foul breath, and if you have any of them, your stomach is out of order and should be corrected. Mi-o-na tablets have cured thousands of cases of indigestion and stomach trouble. If you have any stomach distress, Mi-o-na will relieve instantly.

But Mi-o-na is not most so-called dyspepsia remedies, does more than relieve; it permanently cures dyspepsia or any stomach trouble by putting energy and strength into the walls of the stomach, where the gastric juices are produced. A large box of Mi-o-na tablets costs but 50 cents. O. L. Reinecke and are guaranteed to cure or money back. When others fail, Mi-o-na cures. It is a producer of flesh when the body is thin; it cleanses the stomach and bowels, purifies the blood and makes rich red blood.

blessing that could be experienced in  
this part of the world at present. The  
fall wheat is looking well but moisture  
is needed badly. The stories of mid-  
winter storms at Winnipeg and the  
middle western states, are read with  
interest, for we do need a shower or  
two ourselves.A thrilling runaway took place on  
Thursday evening last in which Mrs.  
C. H. Bright of Carmangy was the  
heroine. She had driven in from Car-  
mangy to take the train for Calgary  
Friday morning and the party were  
alighting at the Queens hotel when the  
horses started. Mrs. Bright had just  
handed the baby out when the horses  
started off at a jog. When they got  
near the livery stable a faster pace  
was put on and Mrs. Bright was  
thrown over onto the whistle trees.  
She managed to retain her seat there  
until the team halted over the side  
walk between the Palace livery stable  
and the American restaurant. The  
jolt threw Mrs. Bright off but most  
fortunately she escaped with a few  
bruises and was able to resume her  
journey in the morning. It was a  
thrilling adventure and the lady is to  
be congratulated on escaping with  
such slight injury.J. B. Boese is remodeling his  
restaurant this week.Mr. W. Walker has sold his shoe  
repairing business to S. C. Bryan  
and leave this week for his homestead  
on the Red Deer.The baseball diamond is likely to  
be changed this year so as to permit  
the use of the grand stand. The  
home plate will be opposite the stand.  
The intention is to enable the people  
to see the game on the grandstand  
on the diamond. The players had a  
few workouts this week and showed  
up in fine form.The mens meeting in connection  
with the Y. M. C. A. on Sunday last  
was well attended and the singing  
was exceptionally hearty. The ad-  
dress delivered Mr. Lavitt on "Faint-  
ed Blood" was greatly appreciated.  
It was a strong address admirably  
adapted to a mens meeting. The ex-  
cellent attendance at the meetings

Messrs. Price and Walls shipped  
two car loads of stock this week, a  
car of cattle bought from John Oliver  
and a car of hogs. The price of hogs  
at present is making the piggy a  
profitable part of the farm crop.  
Messrs. Price and Walls are paying  
9 to 11-2 cent on the hoof and there  
is big money for the farmer at this  
price. All cattle bought for June  
delivery brought 11-2 cents but the  
market is a trifle easier at present.The big fire in the Porcupine  
range this past week attracted a lot  
of attention and with the high winds  
prevailing there was much specu-  
lation as to where it was going to stop.  
While no report is available it is sur-  
mised that a very large quantity of  
timber was destroyed. The air was  
dense with smoke particularly near  
Staveland. The dry weather is making  
it very necessary that the utmost vi-  
gilance should be exercised in connection  
with fires.Don't forget the coming visit of Miss  
Josephine Macleachlan on April 29th.  
She is the Queen of Scottish song and  
has delighted the world. This is her  
first visit to Claresholm and the peo-  
ple will long regret it should they  
overlook this event. Miss Macleachlan  
is supported by several other noted  
artists and if the people want some-  
thing high class and entertaining this  
concert will furnish the opportunity.  
Don't forget the date Friday April  
29th. The Review pledges its reputa-  
tion as to Miss Macleachlan's ability  
as a singer. She is well worth hear-

tion for a flour mill. The request  
comes from Aberdeen, Scotland and  
the writer states that a number there  
who understand the milling business  
in all its branches are desirous of  
starting in this country. Mr. James  
secretary of the board has replied  
pointing out the advantages Claresholm  
offers as the center of a great  
wheat field and possessing water and  
electric light and other facilities.  
He expressed the opinion that the  
town would grant a free site to a  
bonifide company. This is but a  
sample of dozens of letters received  
and answered by the secretary and  
there are some who think this board  
of trade is no good to a town.By omission reference was once

## FARMERS FROM UNITED STATES

**5,000 AMERICAN FARMERS CAME  
TO CANADA IN 1929**

Estimated that they brought \$50,000,000—Washington Authorities are Alarmed Over the Continued Movement of Wealthy Farmers to Western Canada, and are Trying to Stop Exodus.

Washington.—The exodus of citizens to Canada is steadily increasing on the United States. It is estimated that no less than 50,000 heads of families, most of them successful farmers, expatriated themselves in 1909 and took up homes under the British flag. All have money, probably none had less than \$1,000, so that at least \$50,000,000 of American

The lure of cheap land is strong and as long as the Canadian north-west offers its virgin prairies to homeseekers at low prices, the rush westward is likely to continue.

A complaint often made by home-  
owners is that there is lack of infor-  
mation concerning the available pub-  
lic domain in the several western  
states. Our remaining public lands,  
exclusive of Alaska and our island  
possessions, consist of about 70,000,000

More than 12,000 American citizens have left the United States since 1900 to settle on the prairie. Many of these are farmers and their families, who have been attracted to the prairie by the promise of cheap land and the opportunity to own their own farms. The prairie is a fertile land, and the climate is generally favorable for farming. The prairie is also a land of opportunity, and many people have found success there. The prairie is a land of hope, and many people have found a better life there.

These figures were compiled as the result of an investigation which has just been completed by Commissioner-General of Immigration Keele. He said that the large number of Canada was called to President's attention, and efforts may be made to close the tide. The investigation disclosed the fact that the best of the money was being largely taken out of those who were selling out in this country and taking their money to Canada, there to take up fertile land.

The bureau of immigration estimates that the amount of money taken from this country by \$5,370 per-

ing, it is said, a conservative estimate. In the period, there fore, from 1911, 1910, the sum of \$95,370,000 taken into Canada.

Since March 31, 1910, to March 31, 1909, 425,460 persons left the United States to reside in Canada permanently. If they took with them the average amount of \$225 per person between March 31, 1909, and March 1, 1910, they took \$25,460,000.

### MEADOW CREEK NOTES.

The Bachelors' Ball was a buzzer. Owing to the event being given great publicity a big crowd gathered in the school house on Tuesday and spent a most enjoyable time. From start to finish the evening and morning went with a swing and almost all the items on the program had to be duplicated owing to the number of chances. Mr. Charlie Westmore made an obliging and capable floor manager. A comprehensive repast seemed to point to the fact that not bachelors only had assisted in that part of the programme. On the whole one ought to be glad to be a bachelor on such occasions as the foregoing.

Mrs. deForest with her daughter came out to their ranch recently.

We are glad to report a change for the better in Mr. Will Gunn who is suffering from blood-poisoning.

A narrow escape from injury and probably death was the experience of Mr. Herbert Pitman the other day. One of the broncho's bolted and flung him under the disc, but happily the machine passed over him without doing much injury, but the disc was smashed up.

Mr. Geo. Maxwell with his wife were visitors at his brother's place on Sunday.

A good crowd were out to church on Sunday. The subject of the sermon was "The Scriptural Christ."

Mr. and Mrs. McComb visited at Wilco's on Sunday.

We noticed that Bob Bell is back again on Meadow Creek on the completion of his course in the Military School.

Meadow Creek, April 10th. Miss Ruth Bissett has gone to town for a short visit.

Doctor and Mrs. Loran were visitors at the Bissett ranch the other day.

Our preacher was away last Sunday taking charge of meetings in Grauman.

Mr. and Mrs. Holding and Mr. and Mrs. Garrow were among the callers at the Hatt place on Sunday.

Rev. H. H. Craig, B. A. made a very favorable impression on our folks last Sunday.

The visitors at Maxwell Hall this week included Mr. C. Hooper, Mr. J. Thompson and his brother Alex.

A party of Indians passed down the Creek the other day, bound for town.

Services at Meadow Creek next Sunday at 3 p.m. Subject: The cost of Christianity.

Baptisms at Bluxburg, by Rev. H. H. Craig, B. A. April 17. Stella May Crawford, Aileen Gladys Crawford, Mary Josephine Crawford, Kenneth Melvin Levy.

Meadow Creek was favored with a visit from Rev. H. H. Craig, B. A. on Sunday last. A good crowd turned out to hear him preach an excellent sermon on Foreign Missions. The speaker was very happy in his dealing with the problem of Missions and his clear cut thoughts couched in admirable language, were very convincing to his congregation. At the conclusion of the services a number stayed to "The Lord's Supper". And all to gather a very helpful time was spent. The Rev. gentleman also preached at Bluxburg in the morning and the same promised during the day for missions was the excellent sum of \$10. Mr. Craig is assured of a hearty welcome should he be able to visit us again.

## To The Public Generally

Having bought the Economy Feed Stables and Drying business from Mr. W. C. Burnham I am arranging to enlarge the facilities and carry on the business on an extensive scale. I will conduct a feed and sales stable second to none in Southern Alberta and farmers in giving me their patronage will have the assurance that I know how to care for horses and use them right.

The livery department will be equipped with the best of vehicles and the speediest of road horses. Travellers and others can count on a most satisfactory service.

I will continue the drying business so well built up and hope by prompt attention to hold all the present patrons of the service and gain many new ones.

We are arranging to install a stock yard and weighing scales and will soon make an announcement of interest to the town.
